

Galston Public School

Student Assistance Application Form

It is the aim of the NSW Government that all students have equal access to a quality education, irrespective of a family's financial status. To achieve this, the NSW Government grants each school a yearly fixed and limited fund, from which schools may offer financial assistance to families from Galston Public School.

These funds can be made available, on a needs basis, to help families either fully or partially meet the cost of school items/events. Please note that for certain items/events financial assistance may not be available, because the school may have already contributed towards the cost of the item/event.

If you require financial assistance to meet or partially meet the cost of a school item/event, please complete the form below and return it to the school office.

Parent/Carer's Name: _____

Date: _____
